Dear séance-participant,

welcome into the world of Physical Mediumship with Kai and Julia Muegge from Germany.

The séance will be moderated by a trance-control, an old *Professor of Parapsychology* (Hans).

A strict sitter's number restriction will moreover assure that everybody has full advantage in witnessing the ongoings happening directly in front of them!

The whole range of spirit-control induced phenomena after the Deep-Trance State-Induction is: Séance conduction by spirit scientists, raps & touches, Independent Light Phenomena, Interaction with and Levitation of Focus-Objects, Apports, exposition of ectoplasm, materialization of crystals from the plasma, messages from spirit personalities.

P*lease note:*

We cannot guarantee which phenomena will be presented! Moreover we cannot 100 % exclude negative séances, but they are unlikely – every condition necessary will be provided by us to the spirit team, that is highly reliable regularly!)

CONDITIONS OF PARTICIPATION AND BEHAVIOUR RULES

BASICS

A previous thorough investigation into the topic is strictly recommended! If during the pre-talk it comes to light that sitters have no knowledge whatsoever in regards to the topic, the run of the séance can be affected negatively.

The Physical Medium Kai Muegge with Ectoplasm

Mainly it is about the appearance of a strange ethereal and infamous substance or fabric, called 'ectoplasm'.

Their acceptation and your according behavior are absolutely required obligation!

During the séance the circle leaders say is rule!

The séance itself is held - besides the red-light parts - in semi-darkness. The room is then illuminated only by some glowing focus objects. Partially total darkness is applied also!

It is very important to watch the video in preparation:

Picture 1: This photo shows how the medium is controlled during ALL the phases of phenomena that occur during the seance, the medium is controlled on the arms and legs to exclude that it is active during phenomena.

Picture 2 and 3: The photo shows how the organizer, in phases of particularly high Spirit activity in the room, also controls Julia and her control of the medium. The organizer may even block the medium with his own body - towards the room - in order to exclude definitively that nothing is being used, with which the medium could control the phenomena. Julia is singing all the time, so that you know where she is.
Julia always has a little glow dot so you can see her and she hums throughout so you can always hear her where she is.
