Dear séance-participant,

Welcome into the world of Physical Medumship with Kai and Julia Muegge from Germany.

"The All-Chemists" (Spirit Team) do work with the medium since 2004 in the tradition of the Physical Mediums and 'Spiritists' of the European mainland, exactly in the tradition of *Rudi* and *Willi Schneider*, both famous Austrian Physical Mediums of the Second Generation and during the table-séances in Eusapia Palladino's tradition. The *Spiritists* believe in the value of Spirit Communication without having formed a religion from in Germany!

The whole range of spirit-control induced phenomena during the Initiations-Séance are: The FEG-Spirit-Scientist are conducting and in control over the whole energetical outcome of the session, raps and touches, ILP/Independent Light Phenomena, interaction with and levitation of Focus-Objects, Apports, Table-Levitation in redlight or/and with a controlled Medium.

P*lease note:*

We cannot guarantee which phenomena will be presented! Moreover we cannot 100% exclude negative séances, but they are unlikely – every condition necessary will be provided by us to the spirit team, that is highly reliable regularly!)

CONDITIONS OF PARTICIPATION AND BEHAVIOUR RULES

BASICS

A previous thorough investigation into the topic is strictly recommended! If during the pre-talk it comes to light that sitters have no knowledge whatsoever in regards to the topic, the run of the séance can be affected negatively. The historic background and the phenomenology of this rarest form of mediumship shouldn't t be completely new to the sitters!

These rules are international standard at physical séances!

Their acceptation and the sitters according behaviour is absolute required obligation!

During the séance the circle leaders say is rule!

The séance itself is held - besides the red-light parts - in semi-darkness. The room is then illuminated only by some glowing focus objects. Total darkness is applied also!

It is very important to watch the video in preparation:

PLEASE BRING YOUR IDENTIFICATION CARDS

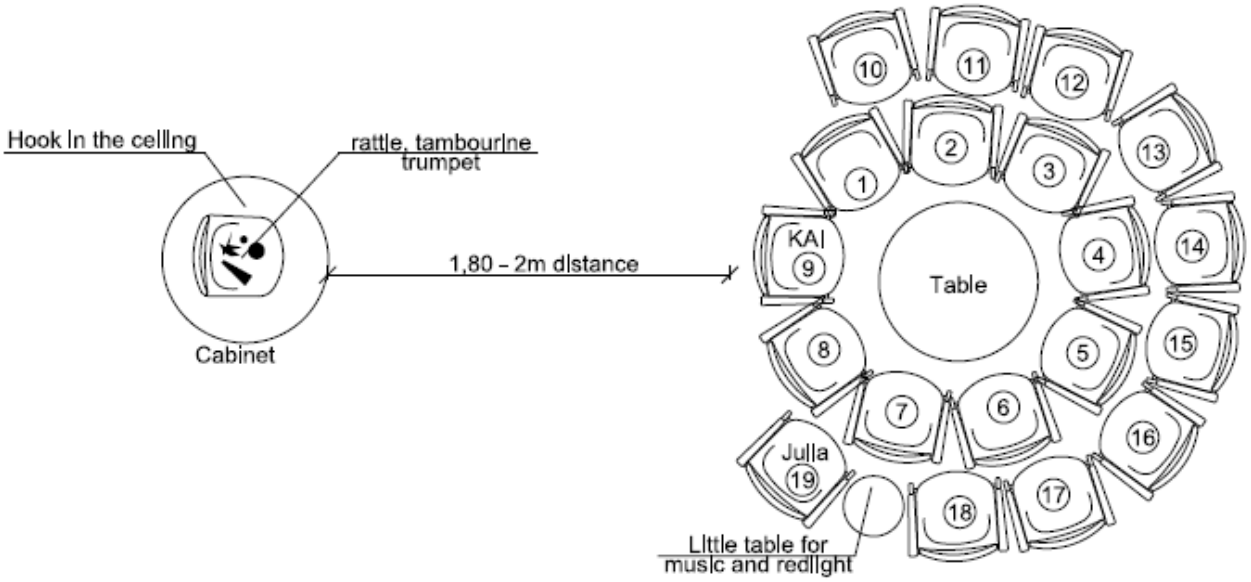
This is in so far a pity, because the Felix Circle wanted originally to give séances by installing a new way of trust regarding the sitters: Meanwhile the medium will be as usual strip searched prior to séance and then be held at both legs and arms by two adjacent sitters always when phenomena have established, sitters always sit in a first row, forming the border of the "force-field" erected by the spirit-scientists and thus need to be checked in regards to their identity (the sitters). You will come that way in direct contact with the phenomena that are happening directly in front of you! As soon as your identity is confirmed!

I declare to be willing to follow the guidelines listed above, to do everything not to endanger the medium and to contribute with positive energy for a successful and powerful séance!
I will bring my identification card to the event to verify my identity!

Please inform yourself also on our website: https://kaimuegge.com/

The Felix-Circle assumes no liabilities - every participation is voluntary.
The presented phenomena are at the best mediumisticaly produced in spiritistic tradtion.
They are experienced by the medium as factual reality. However it´s up to the participants to evaluate the ongoings for themselves due to standpoint and worldview.

Photo-, Video- and Audio recordings are strictly prohibited.



The cabinet is an extra-room within the séance-room, with a curtain which can be closed. In the cabinet there is a chair with the focus-objects. Kai is sitting with you at the table, Julia has both hands on the neighbour when phenomena will happen.
